	Recommendations on Corporate Governance	Jyske Bank comments
1.	<p>Interaction with the company's investors and other stakeholders</p> <p><i>The company's shareholders, investors and other stakeholders, including society, have a common interest in promoting the company's development and ensuring that the company is competitive and value-creating in the short as well as the long term.</i></p> <p><i>Therefore, the management must ensure that the company in the short as well as the long term develops in an expedient manner.</i></p> <p><i>It is therefore important that the interaction between management and shareholders, as well as with the company's investors and other stakeholders, including society, is well-functioning.</i></p> <p><i>Corporate governance is, inter alia, about creating a framework, which renders it easy for shareholders, investors and other stakeholders to interact with the company's management. Openness and transparency are preconditions for shareholders, investors and other stakeholders being able to assess and consider the company and its future prospects on a current basis and for interacting with the company in a constructive manner.</i></p>	
1.1.	Dialogue with the company's shareholders, investors and other stakeholders	
1.1.1.	<p>THE COMMITTEE RECOMMENDS that the management through ongoing dialogue and interaction ensures that shareholders, investors and other stakeholders gain the relevant insight into the company's affairs, and that the Supervisory Board obtains the possibility of hearing and including their views in its work.</p>	<p>Jyske Bank is compliant.</p> <p>Jyske Bank informs shareholders, investors and other stakeholders about the bank's development at jyskebank.dk on an ongoing basis, and the bank always seeks an active dialogue with both Danish and</p>

		<p>foreign shareholders and investors through investor presentations and conferences as well as conducting road shows. Feedback from shareholders is part of the quarterly investor relations reporting to the management.</p> <p>The Supervisory Board keeps a close dialogue with the Shareholders' Representatives elected by the shareholders, and the viewpoints of the Shareholders' Representatives are actively and determinedly considered in material decision-making processes.</p>
1.1.2.	THE COMMITTEE RECOMMENDS that the company adopts policies on the company's relationships with its shareholders, investors and if relevant other stakeholders in order to ensure that the various interests are included in the company's considerations and that such policies are made available on the company's website.	Jyske Bank is compliant.
1.1.3	THE COMMITTEE RECOMMENDS that the company publishes quarterly reports.	Jyske Bank is compliant.
1.2.	The general meeting	
1.2.1. THE COMMITTEE RECOMMENDS that the Supervisory Board ensures that shareholders can observe the general meeting via webcast or other digital transmission. 1.3.	Takeover bids	
1.3.1.	THE COMMITTEE RECOMMENDS that the company has a procedure in place in the event of takeover bids, containing a "road map" covering matters for the Supervisory Board to consider in the event of a takeover bid, or if the Supervisory Board obtains reasonable grounds to suspect that a takeover bid may be submitted. In addition, it is recommended that it appears from the procedure that the Supervisory Board abstains from countering any takeover bids by taking actions that seek to prevent the shareholders from deciding on the takeover bid, without the approval of the general meeting.	Jyske Bank is partially compliant. The Supervisory Board has a procedure which, in accordance with the law and the company's Articles of Association, does not prevent the shareholders from deciding on a takeover bid. However, in a given situation, the Supervisory Board reserves the right to assess the possibilities of making dispositions which the Supervisory Board finds to be in accordance with the long-term interests of the shareholders, customers, employees and society and with Jyske Bank's goal of being an independent Danish group, as the Supervisory Board is aware of the Group's societal importance.
1.4.1.	THE COMMITTEE RECOMMENDS that the Supervisory Board adopts a policy for the company's corporate social responsibility, including social responsibility and sustainability, and that the policy is available in the Management's Review and/or at the company's website. The Committee recommends that the Supervisory Board ensures compliance with the policy.	Jyske Bank is compliant.
1.4.2.	THE COMMITTEE RECOMMENDS that the Supervisory Board adopts a tax policy to be made available on the company's website.	Jyske Bank is compliant.

	Recommendations on Corporate Governance	Jyske Bank's comments
	<p><i>It is the responsibility of the Supervisory Board carefully to safeguard the interests of the company and the shareholders with due regard to investors and other stakeholders.</i></p> <p><i>The Supervisory Board must ensure the value creation in the company in the short as well as in the long term and is responsible for the company's strategy and for following up on the implementation of the strategy. In addition to the statutory duties, the Supervisory Board must ensure that the company possesses the required financial prerequisites and the competencies to reach its targets.</i></p> <p><i>Reaching the company's strategic targets presupposes that the Supervisory Board engages a competent executive management to handle the day-to-day management, that the Supervisory Board determines the division of duties between the Supervisory Board and the executive management, determines the duties and the employment terms of the executive management and that the Supervisory Board ensures that clear guidelines concerning responsibility, planning, follow-up and risk management are in place. The Supervisory Board supervises the executive management and determines the guidelines for executing the supervision. In supervising the executive management, the Supervisory Board must ensure that the executive management continuously improves, and that members are retained or dismissed.</i></p> <p><i>The chairperson organises, convenes and chairs meetings of the Supervisory Board in order to ensure that duties are performed efficiently and pursues the best possible preconditions for performing the duties of the Supervisory Board.</i></p> <p><i>It may be expedient to organise the duties of the Supervisory Board in an annual wheel in order to ensure that the Supervisory Board addresses all the relevant duties on an annual basis.</i></p>	
2.1.	Overall tasks and responsibilities	
2.1.1.	<p>THE COMMITTEE RECOMMENDS that the Supervisory Board in support of the company's statutory objects according to its articles of association and the long-term value creation considers the company's purpose and ensures and promotes a good culture and sound values in the company. The company should provide an account thereof in the management commentary and / or on the company's website.</p>	<p>Jyske Bank is compliant.</p>

It is recommended that the company publishes any decision on allowing a member of the Supervisory Board to take part in the daily management, including the expected duration thereof.</p>	<p>Jyske Bank is compliant.</p>
3.	<p>The composition, organisation and evaluation of the Supervisory Board</p> <p><i>The Supervisory Board acts collectively and has a joint responsibility for performing the duties of the Supervisory Board. The composition of the Supervisory Board must enable the Supervisory Board to manage duties relating to strategy, management and supervision / control. It is important that the Supervisory Board manages its duties efficiently in a constructive dialogue with executive management and that the individual members of the Supervisory Board always act independently without any conflict of interest.</i></p> <p><i>Diversity (including age, gender or educational and commercial background) increases the quality of the work and the interaction on the Supervisory Board and ensures diverse approaches to solving the tasks of the Supervisory Board.</i></p> <p><i>The Supervisory Board determines the qualifications required on the board and continuously evaluates whether the composition and the qualifications of the members, reflect the company's requirements for safeguarding the company's interests.</i></p> <p><i>The evaluation of the Supervisory Board is an important tool to ensure that the company has a competent, relevant, professional and active Supervisory Board. It is therefore important that the Supervisory Board on a current basis conducts self-evaluation and evaluates its cooperation with executive management, and that there is transparency in the process as well as the results of the evaluations. The evaluation should also include an evaluation of the chairperson's performance of his / her duties.</i></p>
